

## **NOVEMBER 2013 - PRESS RELEASE**

### **F-TYPE COUPÉ TO MAKE DYNAMIC DEBUT IN LOS ANGELES**

**6 November 2013:** The Jaguar F-TYPE Coupé – the most dynamically capable, performance-focused, production Jaguar ever – will make its global debut on 19 November, the eve of the Los Angeles auto show.

The all-aluminium F-TYPE Coupé range will deliver in production form the uncompromised design vision of the acclaimed C-X16 concept, and will complement the existing 2013 ‘World Car Design of the Year’ award-winning F-TYPE Convertible range.

Ian Callum, Director of Design, Jaguar, said: *“The excitement generated when we revealed the C-X16 concept was terrific; so to now be on the cusp of what I can assure you will be a drama-filled reveal event in Los Angeles for F-TYPE Coupé is a very significant moment.*

*“We’ve been overwhelmed by the positive reaction to F-TYPE Convertible, but for me the purity of creating a sports Coupé is a uniquely satisfying process – and I know that both visually and dynamically, F-TYPE Coupé raises the bar yet again.”*

Full technical details, images and film of F-TYPE Coupé will be available on 20 November at 03:30 (GMT) from [www.media.jaguar.com](http://www.media.jaguar.com)
